

The Video Platform

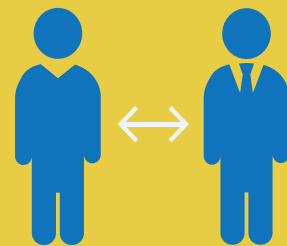

WHO IS IT FOR?

COVID-19

REMOTE
WORK

SOCIAL
DISTANCING

Companies/professionals missing face to face interactions with customers

Companies wanting more interactions
with their deaf customers

WHY US?

World In Sign (WIS) is a deaf owned company. When we talk about communication accessibility, we know what we are talking about.

We believe in employing sustainable development goals in all our endeavors as we aim to empower populations often left behind by researching, innovating in and providing telecommunication technology and services so they can reach their full potential. WIS partners with businesses, individuals and communities all around the world to achieve it

"You matter - no matter how you communicate"

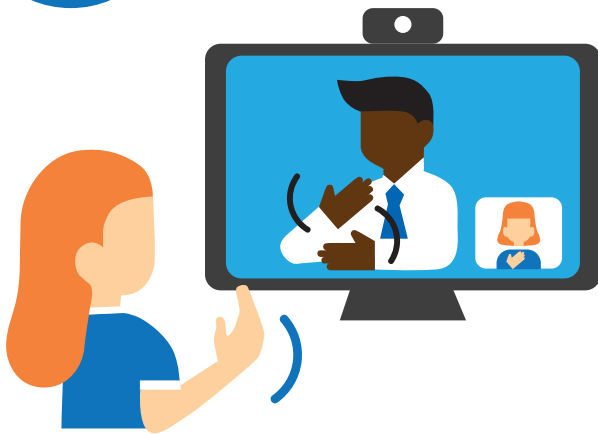

HOW IT WORKS?

Registered companies have a button on their website to connect their customers to them in 2 (two) ways

One on one video

Any device with internet connection and webcam.

Customer using ASL to professional representative using ASL

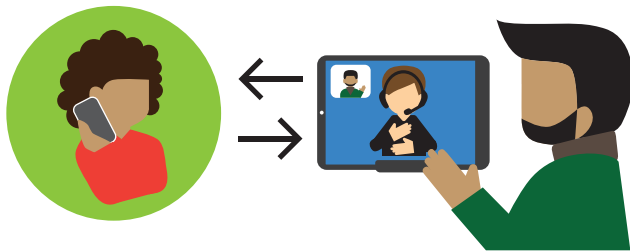

OR

Hearing customer to hearing professional representative (e.g. doctor's appointment, counseling...)

Via a Sign Language interpreter

Customer using ASL to ASL interpreter to professional representative
